W. V. Bingham 9AFF
2424 West Monroe St.,
Chicago Ill.

Dear OM;

I have been instructed to write you regarding the Apparatus which you recently donated to Fred Catel for the use of the Club's station. The transformers were received in good shape and are already being installed in the power supply. We wish to thank you many times for them. The announcement that your concern had made such a generous donation sure did tickle the boys and our new set and trans., with good prospects for a club house have got the boys all peppered up.

We should have acknowledged receipt of this apparatus earlier but I thought that it would be done by Fred himself as he was the one who "promoted" them, but he wished to have this done by some one other than himself because he received them. Our "BOWLING" team will make a trip to your city in the near future to trim the Chicago gang? and hope to see you there.

Once more thanking you for the fine transformers and assuring you that we appreciate them very much, I am,

Yours With Best Regards,
